

A. McGovern Logging and Sawmilling

West Brookfield, VT

A. McGovern Logging and Sawmilling is a full time logging and sawmilling operation located in West Brookfield, VT.

A. McGovern will upgrade his sawmill, giving him the capability to produce a variety of products including custom sawn timbers of various dimensions, dimensional framing lumber, 1 inch boards, various thicknesses and lengths of hardwood boards, specialty items such as live edge bar tops and specialty woods. Quarter-sawn hardwood lumber can be produced for flooring or furniture stock and large pine logs can be sorted and sawn for wide pine boards which are in demand for flooring, paneling and wainscoting. Wood can be custom sawn to dimensions to match timbers in old barns and houses that are being rebuilt or renovated. Clapboards and shakes can be produced for wood siding or roof applications. Logs with unique characteristics such as tapped or curly maple could be sawn for specialty uses. Timber framers, barn builders, general contractors, homeowners, furniture and specialty woodworkers are his target customers.

Total Working Lands Grant—\$20,000.00

Total Match provided by A. McGovern Logging and Sawmilling — \$20,000.00
