

Black River Meats

North Springfield, VT

Black River Meats brings the best proteins of Vermont and New England to market. Committed to our community, we focus on customer service, uncompromising food safety, and fair pricing. For over 35 years we have been connecting farmers to food service throughout the northeast.

Black River Meats (BRM) project will consist of three projects in one.

1. BRM will purchase 1-Rollstock Packaging Machine.
2. BRM will install advanced lot-tracking and yield-analysis software enabling reports back to producers.
3. BRP will conduct supplier development programs to increase the supply volume and stability of high-quality, market-ready Vermont meats.

With the Working Lands Enterprise support for these activities, BRM will expedite the opportunities for Vermont producers to reach the significantly under-developed regional food service and retail markets for local and natural meats.

Total Working Lands Grant—\$50,000.00

Total Match provided by Black River Meats—\$100,000.00
