

VERMONT WORKING LANDS ENTERPRISE INITIATIVE

Canaan Community Forest Committee, Town of Canaan, and Canaan Schools

This project is “Continued Development of the Canaan Community Forest (CCF) as a Model Working Forest and Educational Resource”. Specifically, the Canaan Community Forest Committee, Town of Canaan, and Canaan Schools are working together to provide hands-on educational opportunities in working landscape occupations for both local high school students and adults. We are requesting funding to enhance Canaan Schools’ Diversified Agriculture Career and Technical Education Program’s ability to train and develop a new generation of local entrepreneurs and workers. Our interest is in providing students and adult learners with the training necessary to enter the workforce and the skills required for utilizing the working landscape to both their own advantage, and that of the regional economy. Funding will provide the tools required to increase our ability to offer these educational services.

Total Working Lands Grant—\$50,000.00

Total Match provided by Canaan Community Forest Committee—\$121,036.00
