

VERMONT WORKING LANDS ENTERPRISE INITIATIVE

Cold Hollow Career Center

Enosburg, VT

COLD HOLLOW CAREER CENTER
Skills . Pride . Excellence

Cold Hollow Career Center was founded in 1981 with a mission to provide the opportunity for every individual to reach their highest potential by: 1) teaching relevant skills that prepare students for the 21st Century, 2) create a positive learning environment that respects individual student needs, and 3) developing well-rounded, respectful citizens. The Forestry and Natural Resources program is 2 year program instructed by Josh Goss. The program covers a variety of topics including heavy equipment operations which is most pertinent to this project. In addition to the CHCC, additional career centers located throughout Vermont's northern forest region have been identified as co-applicants.

Working Lands funds will be used to build operator capacity for use with cut-to-length (CTL) harvesting system in Vermont's northern forest by purchasing simulator systems and exposing students around Vermont to these systems through hands-on-training.

Total Working Lands Grant: \$53,244
Total Matching Funds: \$4,000
