

## VERMONT WORKING LANDS ENTERPRISE INITIATIVE

# Currier Forest Products

Danville, VT

Currier Forest Products is Vermont's Trusted Source for Quality Forest Products! Located in the Northeast Kingdom, Currier Forest Products specializes in custom flooring, timbers, historic restoration, and custom sawing and sorting.

CFP will be purchasing a Nyle Dehumidification kiln to provide drying services for NEK land owners and wood based businesses. The kiln will complement the full line of milling services currently provided by CFP and will significantly reduce the processing bottleneck created by shipping wood out of the region for drying. The small batch size of the proposed kiln will improve the profit margin for wood harvested by NEK landowners and reduce input costs for businesses using NEK produced lumber.

Total Working Lands Grant—\$12,000.00

Total Match provided by Currier Forest Products—\$3,000.00
