

VERMONT WORKING LANDS ENTERPRISE INITIATIVE

Patricia A. Hannaford Regional Technical School District

Middlebury, VT

Patricia A.

Hannaford
 **Career
Center**

The mission of the Hannaford Career Center is to provide high quality technical, workplace and continuing educational opportunities for the secondary and adult learners of Addison County.

The majority of students come from Middlebury Union High School, Mount Abraham Union High School and Vergennes Union High School. We also have students from private schools, homeschooled students, and high schools in the outlying areas.

The Hannaford Career Center will provide the funding to enable PAHCC to share the Skilled Butchers and Meat Cutters curriculum state and region wide. Further, this funding would provide technical assistance to other schools as they collaborate with businesses to implement the program. They visualize 4 training centers in the state, River Valley Technical Center, Green Mountain Technical Center, Hannaford Career Center and Vermont Technical College.

They will also be developing curriculum in Charcuterie and producing a training video encompassing all of our courses.

Total Working Lands Grant—\$55,000.00

Total Match provided by the Hannaford Career Center —\$75,000.00
