

VERMONT WORKING LANDS ENTERPRISE INITIATIVE

Kingdom Brewing

Newport, VT

Working Lands funding allows Kingdom Brewing to add a retail bottle/cannery as well as a counter pressure controlled sample and growler fill station to their 5 BBL brewery. Their farm brewery grows hops and ingredients used in beer production, and they also use the byproducts to feed farm animals that are raised for eggs or beef. This will help expand the consumer access and consumption of their Vermont Grown and packaged product. These canning/bottling lines will be needed to expand their product into all Vermont outlets and beyond.

Total Working Lands Grant—\$20,000.00

Total Match provided by Kingdom Brewing—\$26,000.00
