

VERMONT WORKING LANDS ENTERPRISE INITIATIVE

North Hollow Farm

Rochester, VT

Located in the heart of the state of Vermont, a stone's throw from the Green Mountain National Forest, North Hollow Farm delivers to our customers the finest in grass-fed beef, natural pork, chicken and goat and 100% pure Vermont maple syrup products.

North Hollow Farm seeks to build an on-farm USDA inspected meat processing plant. North Hollow Farm has been marketing top quality Vermont beef for 25 years, raising a herd of 400-500 cattle, processing 5/week. The farm has reached a scale at which its markets demand product and packaging consistency and the farm requires optimal carcass yield. Integrating processing will allow the farm greater control over yield and presentation. The facility will also provide opportunities for farms/homesteaders seeking USDA inspected processing who are on waiting lists elsewhere.

Total Working Lands Grant—\$24,380.00

Total Match provided by North Hollow Farm—\$24,380.00
