

Torrani Studio Craft, LLC

Eden Mills, VT

Torrani Studio Craft is a maker of hand-carved wooden spoons, bowls and cookware. Each piece is made by Patrick Ford-Torrani, in a singular process, to become a one of a kind heirloom. Educating the public about the heritage process and living with the land is the driving force behind this business.

Torrani Studio Craft, LLC, a single member start-up, will use the Working Lands funds for machinery to expand its product line of “Forest to Form” cookware and implement a seasonal production-to-market strategy coinciding with forest harvest, farmers markets, and holiday craft fairs.

Total Working Lands Grant: \$5,000

Total Matching Funds: \$31,900
