

Vermont Bean Crafters

Warren, VT

Growing the Northeastern Staple-Foodshed with Dry Beans is an endeavor to open market opportunities for Vermont farmers and food marketers by developing a new supply chain for specialty staple-foods. Vermont Bean Crafters will drive this market development by leveraging its existing assets and competencies, along with significant supply chain improvements (equipment purchases, building upgrades, supplier cultivation, and logistics strategies) to fill the production, aggregation, processing, and marketing gap in the Northeast's staple-food supply chain.

Total Working Lands Grant—\$50,000 for growing the Northeastern staple-foodshed with dry beans
