

VERMONT WORKING LANDS ENTERPRISE INITIATIVE

Vermont Greenwood Resources, Co.

Waterbury, VT

Vermont GreenWood Resources Co. began as Mad River Forestry, LLC in 2009 and has been providing sustainable forestry and arboricultural services since then. Mad River Forestry, LLC has contracted with organizations such as Audubon Vermont and the National Forest Service to provide outstanding services. They have also built good relationships with foresters, landowners, and educational institutions in our area. They regularly offer harvest tours for forestry students at the University of Vermont and have conducted an annual county forester's tour on one of their harvest sites.

Funds will be used to add chipping capacity and to develop a pulpwood concentration yard to capture additional value from the wood products harvested.

Total Working Lands Grant: \$75,000

Total Matching Funds: \$750,000
